

Deliverable D9.1

Quality Project Plan

WP9

Grant Agreement number	792355
Project acronym	GEO4CIVHIC
Project full title	Most Easy, Efficient and Low Cost Geothermal Systems for Retrofitting Civil and Historical Buildings
Due date of deliverable	30/06/2018 (M3)
Lead beneficiary	1-CNR-ISAC
Other authors	Francesco Cicolin, Adriana Bernardi and Francesca Becherini (CNR-ISAC)

Dissemination Level

PU	Public	
CO	Confidential, only for members of the consortium (including the Commission Services)	X
CI	Classified, as referred to in Commission Decision 2001/844/EC	

Publishable summary

This Quality Project Plan for the GEO4CIVHIC consortium specifies quality assurance requirements and applicable standards and procedures during the four years European project GEO4CIVHIC. The Quality Project Plan was produced by the Coordinator with the help of the support Team established during the Kick-off meeting. It is structured into the sections Organisation, Planning, Controls and Reviews.

This document provides a plan that identifies the responsibilities of the consortium beneficiaries and the process for executing quality requirements. The primary objective of this document is to establish a Quality Plan that will be ensuring high quality results and smooth processes within the consortium during the project.
