CI	Classified, as referred to in Commission Decision 2001/844/EC	

Summary

The report D3.5 “First report on the results of pilot Facilities demonstration n.1 in Padua: performance of the plug&play solutions and of the adaptation of well point technique” is a confidential document delivered in the context of WP3, Task 3.3.2 “Testing in the Pilot facility n.1 ad CNR”.

The report includes the description of the activities concerning the planning, the design and the installation of the heat exchangers as well as the installation of the heat pumps and the connection between BHEs and heat pump.

The implementation phase at Pilot site was delayed due to Covid-19 pandemic.

The results of the monitoring phase will be included within the report in a following phase.
